BACKGROUND

D.07-10-032, *Interim Opinion on Issues Relating to Future Savings Goals and Program Planning for 2009-2011 Energy Efficiency and Beyond*, dated October 18, 2007, stated the following as it relates to Marketing, Education and Outreach (ME&O): ME&O programs should be more strategic and comprehensive in the way they are used to promote energy efficiency and the statewide energy efficiency strategic plan should address ME&O.

Utilities should work with Commission staff to develop an energy efficiency web portal that provides integrated point of access to energy efficiency program information.

The Commission should lead an ME&O task force to assist in the relevant aspects the statewide strategic plan and utility portfolio applications, develop an energy efficiency web portal, and consider the development of a brand for California energy efficiency products and services.

The statewide strategic and utility applications for approval of 2009-2011 energy efficiency portfolios should provide details about how education, marketing, and outreach activities will be used to promote energy efficiency program in an integrated and coordinated fashion.

The Commission should reconsider its approach to ME&O funding and contracting procedures if it determines that existing programs, practices, and procedures are not effective or efficiently managed.

D.08-09-040, *Decision Adopting the California Long-term Energy Efficiency Strategic Plan*, dated September 18, 2008, stated the following in relation to ME&O: Directed the IOUs to assist the Energy Division and the Commission in the development of a statewide energy efficiency brand and an integrated marketing, education, and outreach (ME&O) strategy. Energy Division in consultation with the assigned Commissioner and Administrative Law Judge shall take the steps necessary to develop a statewide energy efficiency brand and integrated ME&O strategy.

D08-10-027, *Decision Adopting Bridge Funding for 2009 Energy Efficiency Programs*, dated October 16, 2008, directed the Utilities, as it relates to ME&O, to: Work with Energy Division to improve existing programs during the bridge funding period as warranted, to reflect recommended changes to 2006-2008 program originating from completed process evaluations such those contained in the 2006-20089 - ME&O process evaluation directed by the Commission and;

To continue current work on the Web Portal under the direction of the assigned Commissioner as provided in D.07-10-032.

The Utilities shall provide amended Marketing and Outreach budgets in their advice letter filings. Should this funding source be insufficient, then the Utilities are directed to propose the use of EM&V funds for this purpose in their advice letter.
